

Memorandum-Faculty Hang Tag Holders:

Please be advised that the project to construct a new co-generation facility on the south end of the Power Plant, requires closing several faculty parking spaces beginning Friday, July 31, 2009.

Specifically, the Whitehead Road and power plant deck parking areas will be permanently closed, and several spaces east (downhill) of the pedestrian crossing from campus into the BMA sculpture area will be temporarily closed during construction.

As a reminder, the faculty hangtag overflow parking area is in the Wyman Park Reserved lot, any un-numbered space. Your J-Card enables entry & exit.

Should you want to change your parking permit to either South Garage or San Martin Garage, *for the same cost per month*, please make arrangements with the parking office, located in the South Garage (Level P1). Please return your faculty hangtag to the office and we will change your permit on the same day. You may always change back to a faculty hangtag post-construction.

Please contact the Parking Office with any parking related questions via email: parking@jhu.edu or via telephone: 410-516-PARK (7275).

Thank you,
JHU Office of Parking and Transportation
